

GUARDRUNNER™

GOES WHERE NO OTHER BOATS CAN GO

THE MOST VERSATILE AND TOUGHEST CLOSE RANGE CRAFT IN THE WORLD

The GuardRunner is based on the RescueRunner concept and is the perfect choice for professional law enforcement and Combat Search And Rescue (CSAR). Designed, developed and built for those who need a small, strong boat for patrolling, rescue missions or transporting of personnel and equipment.

UNIQUE CAPABILITIES

The GuardRunner can be launched from shore, larger vessels or by helicopter.

Access areas in shallow, rocky and narrow waters where other boats cannot reach.

Transfer persons and equipment by safe, quick and stable boarding onto other boats.

Tow up to 15 meter boats, life rafts or other objects.

DESIGNED FOR SAFE OPERATIONS IN EXTREME CONDITIONS

- Glass fiber enforced cartridge
- "Plug and play" rugged Polyethylene Hull
- Built-in soft fenders
- Totally six watertight sections
- Integrated Aft Rescue and Loading deck (1,5 m²)
- Quick and safe access to clean the waterjet via hatch
- Bilge Pump Redundancy Systems
- Many possibilities for customization

GUARDRUNNER™

GOES WHERE NO OTHER BOATS CAN GO

TECHNICAL DATA

Length	3.6 m
Beam	1.5 m
Height	1.2 m
Dry weight	375 kg
Draught	0,3 m
Load capacity	≤ 375 kg
Top Speed	≈ 38 knots
Engine	Yamaha four stroke, 110 hp
Fuel Capacity	70 l
Range	≤ 100 Nm

OPTIONAL FUNCTIONS & EQUIPMENT

- Navigation system/GPS
- Navigation lights
- Flashing blue lights
- Search lights
- Engine pre-heater
- Shore power charging system
- Foldable mast
- Cargo rack
- Quick loading system on aft deck

OPTIONAL DESIGN

There are many colour choices as options. From camouflage to different combinations of colours and prints.

Extremely rugged with the drive train installed in a GRP cartridge and a "plug & play" protective, outer Polyethylene hull.

SAFE AT SEA OFFERS YOU NOT ONLY A PRODUCT BUT A TRUE PARTNERSHIP

Our way of working always starts by learning to understand your operational challenges and together identifying your specific needs. The aim is to develop a customized system involving launch-and-recovery solutions, personal equipment, training & operational procedures etc. for law enforcement and combat search-and-rescue.

COMBAT SEARCH AND RESCUE SYSTEMS

- GuardRunner
- Mobile Rescue Station
- Launch & Recovery Cradles
- Boat Lifts
- Trailers
- Personal Equipment
- Communication Systems
- Training
